PROFESSIONAL SUMMARY

Documentary photographer and videographer specializing in real environments, high-volume capture, and disciplined post-production workflows. Delivered 16 events and 150+ hours of capture and post-production in a single season, producing multi-platform packages while building media-tracking systems and on-boarding materials for a team. Strong foundation in landscape and decisive action portrait and event photography and large-scale file organization. Seeking production content roles documenting manufacturing processes, construction sites, product-in-use applications, and industrial operations where strong technical habits and a willingness to learn are valued.

EDUCATION

University of Wisconsin-Milwaukee

Film Program + Advanced Topics in AI (Low-Code Delivery).

Currently enrolled

Milwaukee Area Technical College

Associate of Applied Science, Mobile Application Development (coursework).

School of Visual Arts, NY

Foundational Photography.

EXPERIENCE

Photographer / Videographer

2026 – 2026

Milwaukee Hittaz Drum Corps

- Captured and edited 16 live events across a full season, including large outdoor festivals, totaling 150+ hours of capture and post-production under tight timelines and changing conditions
- Produced and published 20 multi-format packages (highlight reels, performance features, stylized portraits) for Facebook and Instagram; content earned organic reposts from participants and families
- Designed a Google Colab media-map system to track file locations, quantities, and metadata across the entire season; authored a DaVinci Resolve README and mentored student editors on workflow and delivery standards

Founder 2024 – Present

City I Love LLC Milwaukee, WI

- Run a documentary photography and video practice focused on real people, places, and processes; published 400+ images to cityilove.com and social channels
- Actively reorganizing a 10,000+ image archive into a structured Google Drive system for long-term retrieval and reuse
- Built and maintain the portfolio website (HTML, CSS, PHP); independently document historical reenactments at Menominee Falls Historical Society summer reenactment events through full capture-to-delivery workflows.

Owner & Operator 2017 – 2023

Jen's Collectibles Dalton, WI

- Directed all product photography, listing, and visual presentation for a profitable e-commerce antiques business
- Achieved 45% average margins and 95%+ positive feedback through consistent, high-quality visual standards and reliable operations

Banquet Server 2014 – 2016

Monona Terrace Convention Center Madison, WI

- Supported 400+ events ranging from 10 to 2,000 guests; stepped into lead roles, trained staff, and maintained service standards under high volume and strict timing

PROJECTS

Automated Video Editing Experiments

- Conduct ongoing self-directed research and planning AI-assisted video editing tools as part of applied AI coursework, focused on accelerating post-production pipelines and multi-version delivery

CERTIFICATIONS

- ABCD Mentor Training — After Breast Cancer Diagnosis (one-to-one peer support)

SKILLS

Photography & Video: Nikon DSLR, iPhone cinema tools, DaVinci Resolve, Adobe Photoshop (RAW & retouching), short-form editing, time-lapse, multi-format delivery
